

MINI USER GUIDE – 1 – ESTIMATES - DIGITAL - 1

Contents

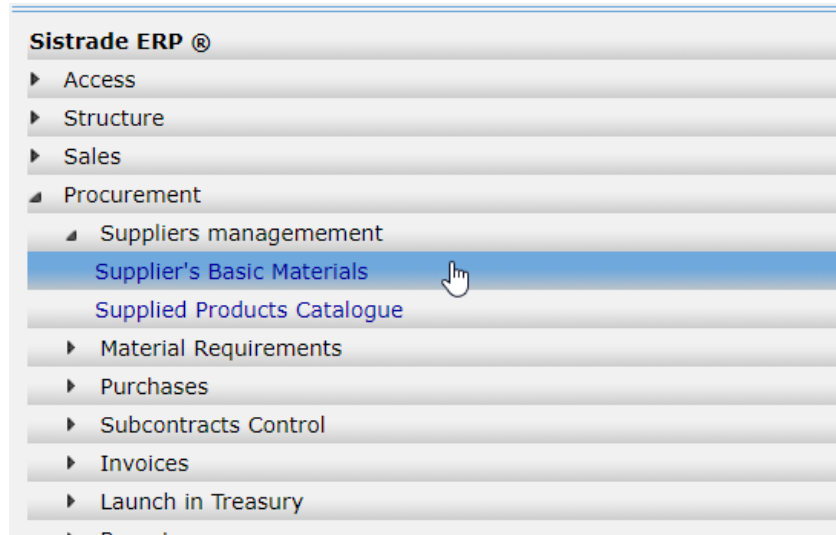

1 – Suppliers by Material	2
2 - Supplied Products prices Catalogue	4

 nodaplast.sistrade.com/v2/main/index/

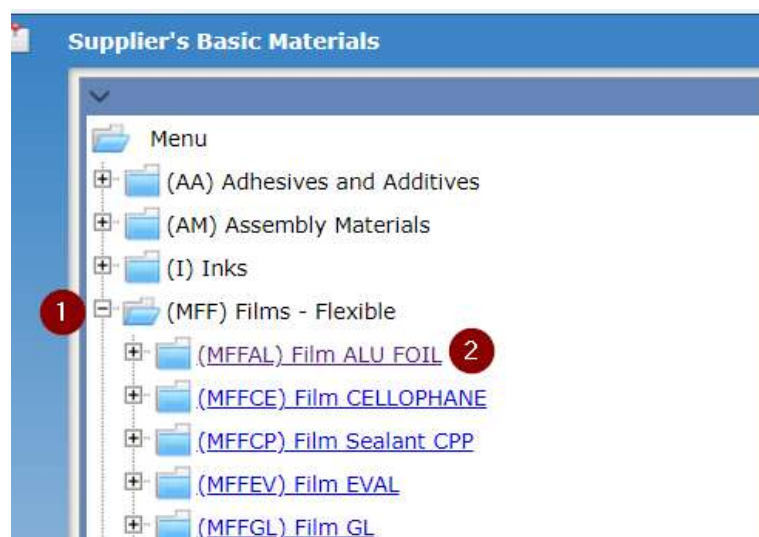

1 – Suppliers by Material

To define all articles that, by default, are provided to the organization by a prearranged supplier, go to menu option Procurement > Suppliers management > Supplier's Basic Materials:

How can it be defined, in the system, rules for allocation of suppliers to sub-families of articles, in other words, which rules will cover given the set of references of articles and after the user defines that this rule of articles will be associated with one or more suppliers, the system will know that the set of references of the article covered by this rule will inherit the same association article / supplier specified in this screen. To set a rule to assign to the supplier base article, the user logic should these steps follow:

- 1 – Click to expand material Family.
- 2 – Select Sub-Family on the available list.

1 – Click on the text box.

2 – Click to define the attributes of the material properly, specific variant or generic (the "_" one) .

After choose all the attributes the user must select the desired supplier(s) from the available list:

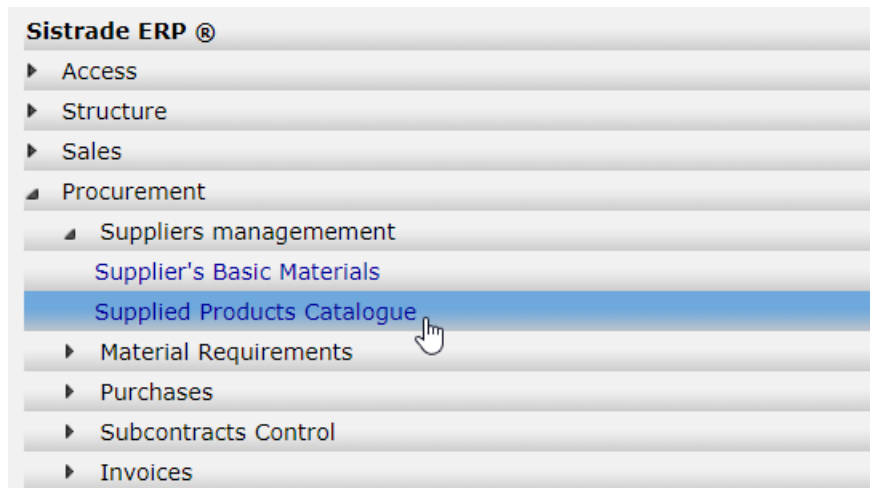

1 – Click to select the supplier, the supplier is selected will have icon 🟢.

2 – After set the rules (it can be several), click on save button.

2 - Supplied Products prices Catalogue

After registered in the system the rules of association article / supplier, the next step is to feed the created rules, in other words defines the information of the prices, purchasing prices per unit of quantity, etc...

To this procedure, go to option Procurement > Suppliers management > Supplied Products Catalogue:

1 – Click to expand material Family.

2 – Select Sub-Family on the available list.

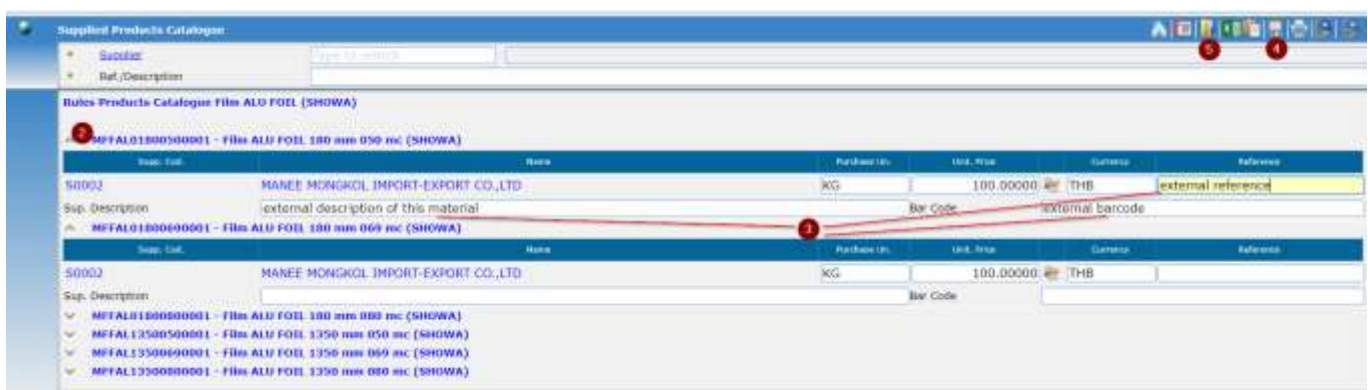

- 1 – The SW will inform about how many already created material references are connected with the presented pricing rule.
- 2 – Expand the rule row in order to check the connected data.
- 3 - If needed click to access the detail parameters window to better define the parameters information, such as quantity levels of pricing agreed with the supplier.

If the user defines "generic" rules (with the "_" on it) for pricing and also have the need to define for the material external information, for example material description of reference, in order to appear properly listed in the Purchase Order layout, the user will need to access the detail level of the rule and for each connected material reference define there the desired information. Like this:

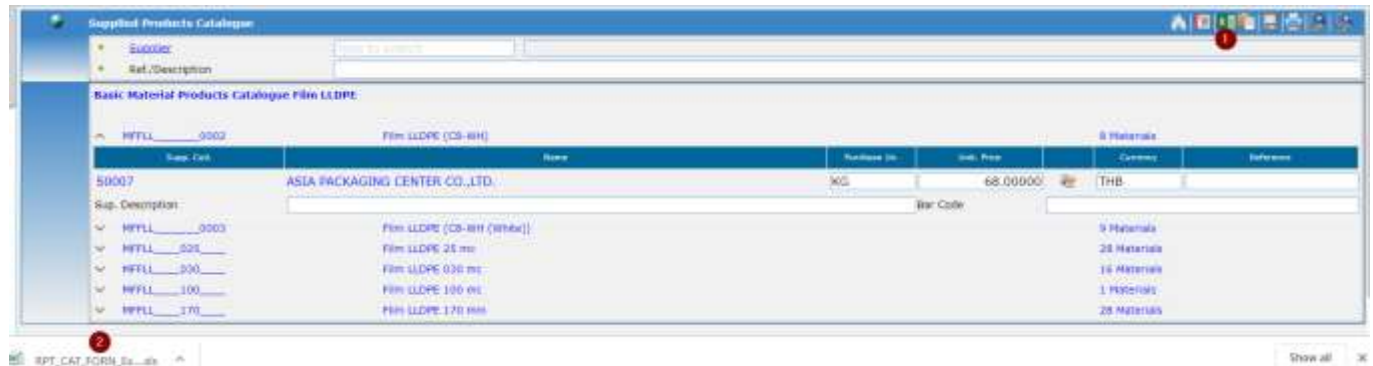

- 1 – Click to access to detail level.

- 2 - Expand the material row.
- 3 – Define supplier description, external reference and external barcode.
- 4 – Save the information.
- 5 – Click to go to upper level.

In order to simplify when introducing new prices or editing prices catalogue it is possible to manage the prices in Excel and then import to the system.

Please check how to do in next steps.

1 – Click on Excel button.

2 – Open the excel file, that will be downloaded to your computer.

D	E	F	G	H	I	J	K	L	M	N	O
Name	Reference	Designated To	Unit	Unit Price	Currency	Qty 1	Unit Price 1	Qty 2	Unit Price 2	Qty 3	Unit Price 3
ASIA PACKAGING CENTER CO.,LTD.			KG	68.00000	THB	1					
ASIA PACKAGING CENTER CO.,LTD.			KG	68.00000	THB	1					
ASIA PACKAGING CENTER CO.,LTD.			KG	68.00000	THB	1					
ASIA PACKAGING CENTER CO.,LTD.			KG	68.00000	THB	1					
ASIA PACKAGING CENTER CO.,LTD.			KG	68.00000	THB	1					
ASIA PACKAGING CENTER CO.,LTD.			KG	68.00000	THB	1					
ASIA PACKAGING CENTER CO.,LTD.			KG	68.00000	THB	1					

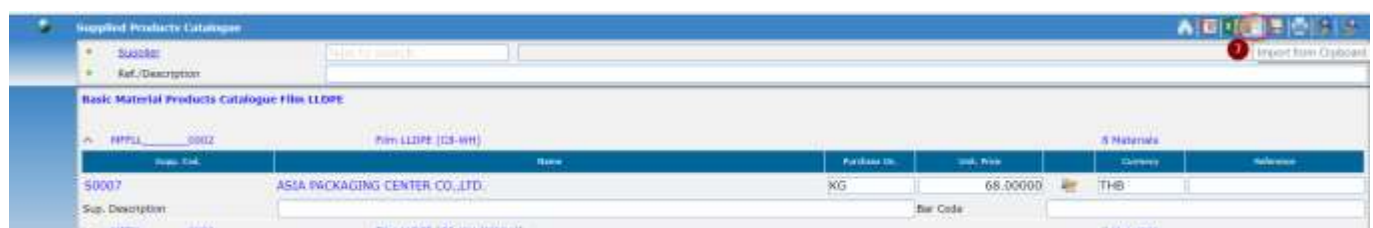

3 – Edit excel file, only the white cells.

4 - The cell is the unit price for the first quantity.

5 – You can edit the unit prices for other quantities.

6 – In excel select and copy the cells with contents.

7 – Click on button Import clipboard.

Unit	Price	QTY	Unit Price
KG	68	THB	50000
KG	57,5	THB	50000
KG	57	THB	50000
KG	58	THB	50000

8 – It will open a text area, please put the focus on text area, paste the information.

9 – Click in the button to confirm the paste.

Unit	Price	QTY	Unit Price
KG	68	THB	50000
KG	57,5	THB	50000
KG	57	THB	50000
KG	58	THB	50000

10 – The system will update the unit prices, for other quantities shows an excel icon, that if you put the mouse over, you will be able to see the unit prices for other quantities.

11 – Save the changes.

If you need to schedule a new price catalogue, please follow the next steps.

Unit	Price	QTY	Unit Price
KG	68	THB	50000
KG	57,5	THB	50000
KG	57	THB	50000
KG	58	THB	50000

1 – Click on button detail parameters.
